Weekly Update November 12, 2019

Important Dates: Thursday, November 14

Urban Ecology Center

NO Parent Meeting

There is **NO** Parent meeting this Wednesday. You should have received an email from Katherine Gomez with that information. If you didn't see that email for some reason, consider this your reminder.

ColettaScope

What a wonderful and successful event we had on Saturday! If you were able to attend, you know what I'm talking about. No matter how YOU define success, we did it! And in the process, we raised some money to continue some of our programs at the school and Transition Program; programs that continue to enrich our students and our school. Right now, we have raised just over \$31,000! Good job everyone.

More importantly, I continue to hear over and over, from people who attend the event, that they have fun when they are there. They love seeing our students and seeing their amazing artwork. That is what makes our 'ColettaScope' different from any other similar event... the majority of the items available are made by our students AND our students are present at the event.

Thank you for helping us make 'ColettaScope' 2019 a success and for believing in our mission!

Transition Program

The Transition Program could use your assistance. One of the many job experiences our students have is to wash dishes that accumulate in the classrooms. This requires dish cloths and drying towels. If you have any clean, and gently used dish cloths and towels that need a new home, look no further. The Transition Program will put them to good use. Please send them to school marked 'Transition Program'. Consider buying some new ones for your home use and recycle your older ones to us! While you're at it, if you have any gently used bath towels, your local Humane Society can always use additional towels for our creature friends.

Cold Weather

Now that the colder weather has kicked in, please make sure that your child has all of the appropriate and necessary items... mittens or gloves, boots, hats and scarves. We have an Urban Ecology Center field trip this Thursday and the weather appears to be below average for this time of year. Dress warmly for Thursday's trip and help to keep your child healthy.

Snacks are Low

We are getting low on snacks so, if you are able to provide some please do. We did have a few snack items left over from the Respite Room after ColettaScope but they won't last long. Fruit snacks and Cheez-It snacks are always popular and easy to serve.

Reflection: "The mind is everything. What you think you become. –Buddha."
